

Spooners Creek Burgee

During the early years of the original Spooners Creek Marina, a group of local boaters enjoyed gathering and cruising together. A Spooners Creek Yacht Club burgee was designed and commissioned – perhaps over a pitcher of bloody marys at one of those gatherings.

The group flew this burgee proudly for many years. A surviving example recently surfaced and a vendor has been found to reproduce this proud symbol of our community. What better symbol for us to display?

There are two available sizes:

14" X 21"	for boats < 30'	at \$30 each
16" X 24"	for boats >30'	at \$40 each

We'll assemble an order for winter production based on demand and have ready for the spring boating season.

Just drop a note or call to add your order.
